We are delighted to welcome **Gabriella Partono** as a new member of our team of osteopaths at the Practice.

Gabriella spent four years training at the European School of Osteopathy in the UK and then moved to New Zealand where she worked both in the north and south islands. Recently returned to settle in Somerset with her partner and baby, she is looking forward to treating individuals from all walks of life - from new-born babies to our slightly older patients. Having worked for a New Zealand National League women's football team, Gabriella is also well placed to treat and rehabilitate acute sports injuries.

Gabriella will be working on Tuesday afternoons and, to suit those with a busy working week, on Saturday mornings.

Appointments with Gabriella should be made through the Practice in the usual way.
